WHO WE ARE

What is Breast Cancer Can Stick It!?

In 2010, April Samuels (a professional drummer out of Dallas, TX) was diagnosed with an aggressive form of breast cancer called triple negative. Immediately, she came up with "Breast Cancer Can Stick It!" to combine her passion for drumming with her passion for fighting breast cancer.

April has been cancer-free since Nov. 2010.

Breast Cancer Can Stick It! is a 501(c)(3) nationally recognized nonprofit, raising funds for mammograms, for financial assistance for breast cancer treatment, and for research and trials.
